

1st Announcement

15th Workshop, June 12 - 13, 2008
***The Synthesis and Applications of
Isotopes and Isotopically Labelled Compounds***

Invitation

On behalf of the International Isotope Society - Central European Division - we are pleased to invite you to the 15th Workshop at Bad Soden on June 12 - 13, 2008. The focus of the meeting is the synthesis and application of isotopes and isotopically labelled compounds in all research disciplines. Amongst the topics to be covered are: New methods in synthetic organic chemistry relevant to isotopic labelling, applications of radioactive and stable isotopically labelled compounds in research and biosciences, PET chemistry, new trends in analytics and measuring techniques, radioactive storage management and waste disposal.

Conference Site

The venue for the workshop will be the Ramada Treff Hotel located in the centre of Bad Soden, Germany, a spa with 30 mineral springs close to Frankfurt (15 km north-west). Bad Soden can easily be reached by train (20 min) from Frankfurt central station or by car from Frankfurt airport (15 min). The hotel restaurant is renowned for its services and wonderful park view location.

Call for Presentations

As in past years, the organizing committee asks for your active participation in this event and invites all colleagues working in the field of isotopic labelling to present their research work in either oral or poster format. **The organizers especially would like to point out that also short contributions are appreciated very much.** Oral presentations will be accepted for 10 to 30 min time slots. This workshop is also a good opportunity for young researchers from academia to present their current work, financial support may be available.

To help us generate a preliminary outline for the scientific portion of the workshop, please let us know of your interest in presenting your work (oral or poster format) **as soon as possible**, the deadline for applications is February 29, 2008.

Program (preliminary schedule)

Thursday, June 12: 2 pm, scientific session begins
Friday, June 13: 3 pm, meeting concludes

Vendor Exhibition

Commercial exhibitors will have the opportunity to advertise their products, services and instrumentation. The exhibition will be held in the same hall as the poster session and coffee breaks to maximize vendor exposure and contacts with customers.
