

2nd Announcement

17th Workshop, September 23 - 24, 2010

The Synthesis and Applications of Isotopes and Isotopically Labelled Compounds

Invitation

On behalf of the International Isotope Society - Central European Division - we are pleased to invite you to the 17th Workshop at Bad Soden on September 23 - 24, 2010. The focus of the meeting is the synthesis and application of isotopes and isotopically labelled compounds in all research disciplines. Amongst the topics to be covered are: New methods in synthetic organic chemistry relevant to isotopic labelling, applications of radioactive and stable isotopically labelled compounds in research and biosciences, PET chemistry, new trends in analytics and measuring techniques, radioactive storage management and waste disposal.

Conference Site

The venue for the workshop will be the Ramada Treff Hotel located in the centre of Bad Soden, Germany, a spa with 30 mineral springs close to Frankfurt (15 km north-west). Bad Soden can easily be reached by train (20 min) from Frankfurt central station or by car from Frankfurt airport (15 min). The hotel restaurant is renowned for its services and wonderful park view location.

Call for Presentations

As in past years, the organising committee asks for your active participation in this event and invites all colleagues working in the field of isotopic labelling to present their research work in either oral or poster format. **The organisers especially would like to point out that also short contributions are appreciated very much.** Oral presentations will be accepted for 10 to 30 min time slots. This workshop is also a good opportunity for young researchers from academia to present their current work, financial support may be available.

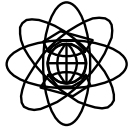

To help us generate a preliminary outline for the scientific portion of the workshop, please let us know of your interest in presenting your work (oral or poster format) as soon as possible, the **deadline for applications (1 page abstract) is July 9, 2010.**

Contributions will be published in the Journal of Labelled Compounds and Radiopharmaceuticals.

Programme (preliminary schedule)

Thursday, September 23, 2010: 2 pm, beginning of scientific sessions
Friday, September 24, 2010: 3 pm, end of workshop

Please note: In addition to the meeting programme it is planned to organise an "Analytical Workshop" on Thursday morning with the focus on "radioanalytics". For further information please contact Dr. Martin Sandvoss directly (Martin.Sandvoss@sanofi-aventis.com).

Scientific programme

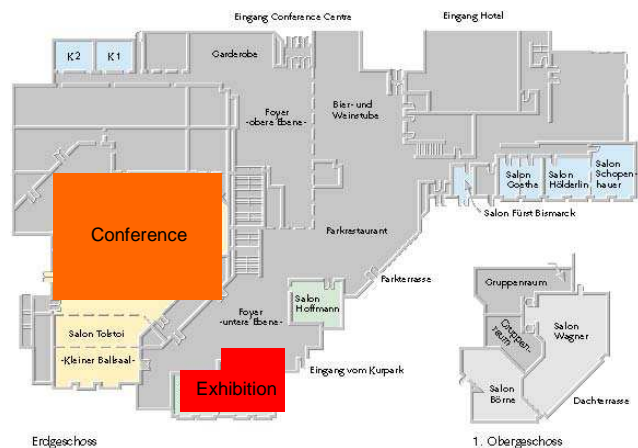

It is intended to present both invited plenary lectures and submitted contributions.

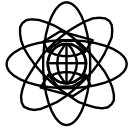

Sponsoring

To keep this internationally renowned workshop on a high scientific level with invited speakers from academia and industry and to enable student participation we would like to ask you to join us in financial support of this meeting. Your tax-deductible donation to this workshop is a worthy and highly efficient investment in progress of science and customer relationship. All donors will be publicly acknowledged in workshop correspondence in the workshop transcription and during the workshop days. If you are interested in sponsoring of the meeting please contact Mr. Siegmar Schnabel of the organising committee (Siegmar.Schnabel@quotientbioresearch.com).

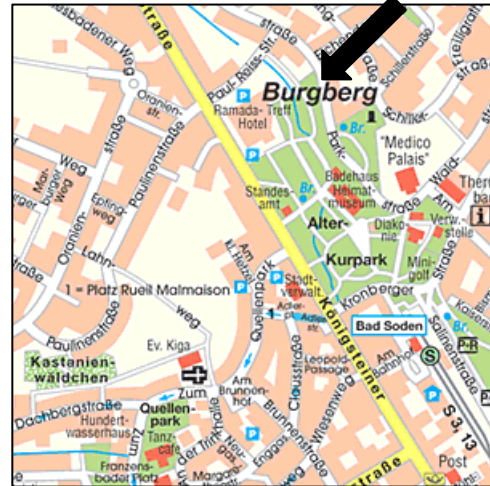

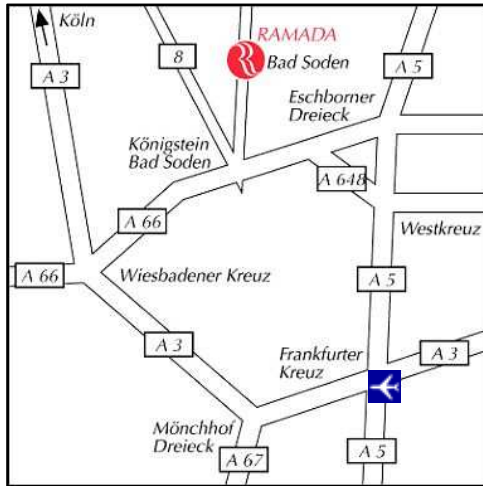

Vendor Exhibition

Commercial exhibitors will have the opportunity to advertise their products, services and instrumentation. The exhibition will be held in the same hall as the poster session and coffee breaks to maximise vendor exposure and contacts with customers.

Travel information

By airplane: From Frankfurt airport it is best to go by taxi (duration 20 - 25 min) to the conference site. Or you can go by the S-Bahn (S8 and S9) to Frankfurt Main Station (HBf).

From Frankfurt/Hahn you can go to Frankfurt Main Station (HBf) by bus (20 Euro, 2 h).

By train: From Frankfurt Main Station (HBf) you can use the S-Bahn S3 to go to Bad Soden (30 min). The conference site is within walking distance (see map).
